Management Discussion and Analysis Report

1. Economy and Outlook

Balaxi Ventures currently operates in Angola, the Caribbean and Central America.

Angola

Angola is Africa's 2nd largest oil producer with a 2019 GDP per capita on PPP basis at USD 6654 and a population of 32mn people. The Government's reform momentum provides cautious optimism for improved business environment of non-oil sectors. Oil prices have stabilized and could recover further, as the global economy recovers from the Covid-19 pandemic shock. The currency seems to have stabilized in the last few months, which augurs well for EXIM trade.

Caribbean Region

Dominican Republic (DR) is the most prosperous country in the Caribbean with a 2019 GDP per capita on PPP basis at USD 18419 (having grown at 4.2% CAGR 2010-2019) and a population of 10.5mn people and is the largest driver for demand in the region.

Central America

This region comprises of 7 countries which were once Spanish colonies: El Salvador, Costa Rica, Belize, Guatemala, Honduras, Nicaragua and Panama. Guatemala is one of the most prosperous country in Central America with a 2019 GDP per capita on PPP basis at USD 8637 (having grown at 1.8% CAGR 2010-2019) and a population of 18mn people.

2. Industry structure and developments.

Angola - Pharma

All medicines sold in Angola have to be registered with the DNME, marketing authorizations have to be obtained and products have to undergo laboratory testing to ensure compliance with stipulated norms and standards. Barring products specified in the NLEM for which gross margins are capped, other medicines can be freely priced. The Government's National Health Development Plan for 2012-2025 sets out to increase use of generics and promotes generic substitution in pharmacies. No local manufacturing takes place currently as both the manufacturing facilities of the only player in the country (PPP) remain non-operational and given the shortage in the local market, there are obviously no pharma exports from Angola. Therefore, import trends into Angola are a good indicator of domestic market size. Total pharmaceutical imports into Angola stood at USD 351mn in CY18, up from USD 235mn in CY16. Actual local currency growth in value terms and volume growth would have been a lot more significant, as the local currency had depreciated sharply during the period.

Trends show a clear shift to affordable generics as CY19 saw imports from Portugal falling 51% YOY in USD terms and 43% fall in imports YOY from rest of Europe. Imports from India and China saw an increase in the same period, growing to ~USD 87mn in CY19.

According to the Angolan Pharmaceutical Society, the Ministry of Health DNME has authorized 219 importers and distributors of pharmaceutical products and medical devices. Although the split is not available, bulk of this would be pharma. Currently, your Company along with Shalina Healthcare and Prince Farma are key players in the generics and branded generics segment.

Post the oil price crash in 2016, a lot of importer distributors exited their existing line of products which were discretionary spending related and switched to pharmaceutical products, primarily because demand was relatively inelastic and currency availability was better. This led to higher competition and undercutting, resulting in a temporary impact on the organized players like Shalina, Prince and Balaxi. However, this increased competition is now receding as some companies realized that pharma is not their cup of tea and number of players has once again undergone some sort of rationalization.

Angola – FMCG

Like pharma, even in the FMCG sector, Angola has a high reliance on imports. Sweet Biscuits which are currently the sole product of the company saw total import of USD 37.96mn in 2018, with Brazil being one of the large sources. According to ResearchandMarkets.com, wholesale and retail of food in Angola contributes over 18% to GDP. The food trade in Angola remains dominated by informal channels, with open-air markets, small traditional stores, and street vendors accounting for 70-80% of the market. As Angola emerges from a recession, its focus has been on 'value for money' quality products. While there are some local manufacturers and a large number of importer distributors, several product categories including rice, confectionaries, ready to cook foods etc. hold tremendous potential for new entrants, who are willing to invest in branding initiatives.

As per BMI Research, spending in food and non-alcoholic beverages is expected to increase from USD 15bn in 2017 to USD 21bn by 2021. Outside of food, there are various consumer items with robust demand, such as hand sanitizers and other personal hygiene products (a permanent lifestyle change caused by the current pandemic) which offer potential for newer entrants.

Angola – Builders' Hardware

Builders' Hardware like other segments, is also largely import dependent, although domestic manufacturers do exist for some of the items. Retailers typically purchase products on cash and carry basis from wholesale depots which offer a wide range of items under a single roof. Entire set of requirements by developers / contractors and home owners are typically made available by these players. As China led investments boost the country's infrastructure spending, demand for builders' hardware is expected to grow at a fine clip. Chinese exporters dominate the market.

DR and Guatemala – Pharma

While both these countries have a sizeable amount of trade with member countries of the CAFTA-DR, local demand is met partially by domestic production and partially by generic imports. DR and Guatemala were net importers to the tune of USD 171mn and USD 392mn respectively in CY17. India is a key player in this market with CY19 imports of USD 42mn and USD 46mn in DR and Guatemala respectively. CY18 imports from China stood at USD 17mn and USD 10mn for DR and Guatemala respectively. Caplin Point is a key player in these markets.

3. Balaxi's Business Structure and model;

The company's business comprises of three different verticals out of which Pharmaceutical formulations is the fundamental driver of revenue, earnings and growth.

The company has a unique stock and sell model in three different geographies – Angola in Africa, and Dominican Republic and Guatemala in Latin America. Our expertise lies in product registrations with the respective authorities of these countries and the expansive on ground distribution networks in these geographies. We get OEM manufacturing done for our products in WHO-GMP certified plants.

Our unique model keeps us asset light, with more than 90% of the company's funds are in liquid assets or finished goods. It also enables us to have a vast product portfolio across all therapeutic segments and dosage forms. Our expertise lies in efficient and well-organized distribution strategies and also front-end sales. We capture most parts of the value chain from importing, distributing, branding and wholesaling.

We have capitalized on our distribution strength and on ground presence in these geographies to foray into the verticals of Builder's Hardware and FMCG.

4. Opportunities, Risks and Threats

The Company identifies the following key Opportunities going forward:

- Introduction of new Pharmaceutical Formulation in therapeutic segment in which the company is not present.
- Deeper penetration for FMCG distribution in Angola by adopting a differentiated model involving deeper engagement with modern trade

- Launching of new product categories in FMCG such as oral care, personal hygiene etc.
- Branding initiatives to push sales of identified 'power' brands in the OTC segment
- Growing the product basket in DR and Guatemala, as pending registrations are received over the coming quarters and strategically filing of newer product registrations
- Deeper engagement in Venezuela where the Company's sales are currently based on third-party registrations; this could include filing for registrations in the Company's own name and / or setting up of its own distribution presence
- Branding initiatives in the Guatemala market to drive sales and premiumization
- Foray into other Central American markets such as Nicaragua, Honduras and El Salvador and into Central African Republic, another identified market

The Company identifies the following key Risks going forward:

Angola, which is a key market for the Company has been emerging from a slowdown and a currency devaluation. Presently there is a stable currency environment, a crash in oil prices could hurt purchasing power and dampen consumer sentiment having an adverse impact on the non-pharmaceutical businesses of the Company.

Given issues of shortage of foreign currency to clear dues of importers in the past, there is a foreign currency fluctuation risk that importers are exposed to. However, pharma is a priority sector and recent trends on the ground show that post currency devaluations carried out last year, availability of foreign currency in general has substantially improved.

The Company identifies the following key Threats going forward:

Given that the Company is a newer entrant in the Central American and Caribbean region, incumbents may launch a price war. However, given the Angola experience and the wide range of products, the Company is confident of building a dominant market presence over time.

5. FY20 Product-wise performance and Outlook

The Company is engaged in the business of International wholesale distribution of Pharmaceutical Formulations, Builders' hardware and FMCG Products.

The Pharmaceuticals segment contributed 63% of the Company's revenues at INR 2871 Lakhs. These were contract manufactured at WHO-GMP approved manufacturing plants in India, in line with our asset light business model that focuses on leveraging distribution expertise and front-end presence of the Group. We continuously strive to meet market demands while maintaining strict standards for quality and timelines and adhering to our core value of providing quality medicines at affordable prices.

The FMCG Segment contributed 32% of the revenues of the Company at INR 1452 Lakhs. Biscuits under the brand 'YAP' were launched during the year and white labelled by an industry leading manufacturer in India.

The Builders' hardware segment contributed 5% of the revenues of the Company at INR 240 Lakhs. White labelled under the trade name Balaxi, these are supplied by reputed manufacturers in India.

Post FY20, the Company's wholly-owned subsidiary in Dubai has commenced contract manufacturing of pharmaceutical formulations at WHO GMP approved manufacturing plants in China and Portugal as well. Likewise, it also commenced sourcing of a much wider range of Builders' hardware products from China. Accordingly, the revenues from this activity should be substantially higher in FY21 as compared to FY20 and are not strictly comparable, as sourcing was restricted to India in FY20.

Further, in June 2020, the Company has acquired the front-end distributors of the Group in DR and Guatemala, along with its IP in terms of Trademarks and Registrations. This will further boost revenues for FY21, as the front-end value-addition element shall also be captured in the consolidated performance of the Company.

In addition to the above, some of the new product launches in the FMCG business in Angola and pharmaceuticals business in DR and Guatemala, will ensure an organic sales growth over FY20 levels.

6. Internal control systems and their adequacy.

The Company has a proper and adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are authorized, recorded and reported correctly. The internal controls are supplemented by an extensive program of inspection of audit committee, statutory audits, and review by management and documented policies, guidelines and procedures. The internal control is designed to ensure that financial and other records are reliable for preparing financial statements and for maintaining records of assets. The entire MIS is on a robust SAP platform.

7. Discussion on financial performance with respect to operational performance.

Total revenues for FY20 stood at INR 4563 Lakhs in comparison with FY19 revenues of INR 1359 Lakhs. Profit before tax (PBT) increased from INR 243 Lakhs in FY19 to INR 926 Lakhs in FY20. Similarly, Profit after tax (PAT) increased from INR 196 Lakhs in FY19 to INR 649 Lakhs in FY20. FY20 was the first full year of operations under the new Management and the entire India sourcing of the Group was carried out by the Company.

To the Members of Balaxi Ventures Limited

Opinion

We have audited the accompanying IND AS Standalone financial statements of **Balaxi Ventures Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, the statement of Profit and Loss for the year then ended, and Cash Flow Statement and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and Profit for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Depending on the facts and circumstances of the entity and the Audit, there are no key audit matters to communicate in the Audit Report.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Ind AS standalone financial statements that give a true and fair view of the financial position, financial performance (including the other comprehensive income), cash flows and Statement of Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Relevant Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit Procedures that is appropriate in the circumstances. Under section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists; we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated

in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the companies (Auditor's Report) Order, 2016 ('the order') issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in the paragraph 3 and 4 of the order.

Notes forming part of Standalone Financial Statements for the Year Ended 31st March 2020

1.1 Corporate Information

"Balaxi Ventures Limited ('the Company') is a public limited company incorporated and domiciled in India whose shares are publicly traded. The registered office is located at Plot no.409, H.No. 82-293, Maps Towers, 3rd Floor, Phase III, Road No: 81, Jubilee Hills, Hyderabad, Telangana, India. The Company was incorporated in September, 1942. The Company Commenced the business of International Wholesale Trading of Pharmaceuticals, Builders Hardware and FMCG products during the Financial Year 2018-19. The Financial Statements were authorized for issue by the board of directors on June 16, 2020."

1.2 Basis of Preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The financial statements have been prepared on a historical cost basis, except for Certain financial assets measured at fair value (refer accounting policy regarding financial instruments).

The financial statements are presented in Indian Rupees (Rs.) and all values are rounded to the nearest Thousands, except when otherwise indicated.

2 Summary of Significant Accounting Policies

a. Current Versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

c. **Revenue Recognition**

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must be met before revenue is recognised:

Dividends

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

d. Taxes**Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

e. **Property, Plant and Equipment**

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Under the previous GAAP (Indian GAAP), property, plant and equipment were carried in the balance sheet on the basis of historical cost less accumulated depreciation (carrying value). The Company has elected to regard the previous GAAP carrying value as deemed cost at the transition date, viz., 1 April 2016.

Depreciation is calculated on written down value basis over the estimated useful lives of the assets as follows:

Asset Block	Useful Life (Years)
Furniture & Fixtures	10
Computer	3
Office Equipments	5

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives are in line with those prescribed by Sch II to Companies Act, 2013.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Impairment of PPE

The carrying amounts of assets are reviewed at each balance sheet date to assess if there is any indication of impairment based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount.

After recognition of impairment loss, the depreciation charge for the asset is adjusted in future periods to allocate the assets revised carrying amount, less its residual value (if any), on straight line basis over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

f. **Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified as Equity instruments at fair value through profit or loss (FVTPL).

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent Measurement

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

g. Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

h. Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

i. Borrowing Costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs are expensed in the period in which they occur.

j. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

k. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

l. Significant Accounting Judgements, Estimates and Assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect reported amounts of revenue, expenses, assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the results of operations during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Consolidated Financial Statements

Independent Auditor's Report on Consolidated Financial Statements

To the Members of Balaxi Ventures Limited

Report on the Audit of the Consolidated IND AS Financial Statements

Opinion

We have audited the accompanying Consolidated IND AS Financial Statements of **M/s. Balaxi Ventures Limited** (hereinafter referred to as the 'Holding Company') and its subsidiary i.e. M/s. Balaxi Global DMCC, Dubai (Holding Company and its subsidiary together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2020, and the consolidated Statement of Profit and Loss, and the Consolidated Cash flows Statement for the year then ended, and notes to the Consolidated IND AS Financial Statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated IND AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated IND AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Accounting Principles Generally Accepted in India, of their consolidated state of affairs of the Company at March 31, 2020, of consolidated profit, and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated IND AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matters

The consolidated Financial Statements include the unaudited Financial Statements of Balaxi Global DMCC (Dubai), an wholly owned foreign subsidiary, whose Financial Statements reflect Group's share of total assets of Rs. -95,47,323 as at 31st March 2020, Group's share of total revenue of Rs. NIL and Group's share of total net loss after tax of Rs. 36,63,670 for the Year ended 31st March 2020 as considered in the consolidated Financial Statements. These unaudited Financial Statements have been furnished to us by the Board of Directors and our opinion on the consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary is based solely on such unaudited Financial Statements. In our opinion and according to the information and explanations given to us by the Board of Directors, these Financial Statements are not material to the Group.

Our opinion on the consolidated Financial Statements, and our report on Other legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the Financial information certified by the Board of Directors.

Responsibilities of Management and Those Charged with Governance for the Consolidated IND AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated IND AS Financial Statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the

Group accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated IND AS Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated IND AS Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective companies included in the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the holding company are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated IND AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated IND AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated IND AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the

Consolidated IND AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated IND AS Financial Statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated IND AS Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated IND AS Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated IND AS Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated IND AS Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated IND AS Financial Statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated IND AS Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated IND AS Financial Statements.
- (d) In our opinion, the aforesaid Consolidated IND AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.

- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2020 none of the directors of the Group companies, are disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of Internal Financial Controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure A.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations as at March 31st, 2020 which would impact on consolidated financial position of the group.
 - ii. The group does not have any long term contracts, including derivate contracts and did not have any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.

Annexure A to the Independent Auditor's Report

Report on the Internal Financial Controls over Financial Reporting under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

In conjunction with our audit of the Consolidated IND AS Financial Statements of the company as of and for the year ended 31st March 2020, we have audited the internal financial controls over financial reporting of **M/s. BALAXI VENTURE LIMITED** (the holding company and its subsidiaries) as at 31st March 2020.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an Audit of Internal Financial Controls. These standards and guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our Audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's Judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion and the company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes these policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail,

accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes forming part of Consolidated Financial Statements for the Year Ended 31st March 2020

1.1 Corporate Information

"Balaxi Ventures Limited ('the parent Company') is a public limited company incorporated and domiciled in India whose shares are publicly traded. The Parent Company and subsidiary are referred to as "Company" for the purpose of this Consolidated Financial Statements. The Parent Company has a wholly owned foreign subsidiary Balaxi Global DMCC, Dubai. The registered office is located at Plot no.409, H.No. 82-293, Maps Towers, 3rd Floor, Phase III, Road No: 81, Jubilee Hills, Hyderabad, Telangana, India. The Parent Company was incorporated in September, 1942. The Parent Company Commenced the business of International Wholesale Trading of Pharmaceuticals, Builders Hardware and FMCG products during the Financial Year 2018-19 and the Subsidiary Commenced its Business Operations on February 2020 onwards. The Parent Company and the wholly owned foreign Subsidiary are engaged in the business of International Wholesale Trading of Pharmaceuticals, Builders Hardware and FMCG products.

The financial statements were authorized for issue by the board of directors on June 16, 2020."

1.2 Basis of Preparation

The Consolidated financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The Consolidated financial statements have been prepared on a historical cost basis, except for Certain financial assets measured at fair value (refer accounting policy regarding financial instruments).

The Consolidated financial statements are presented in Indian Rupees (Rs.) and all values are rounded to the nearest Thousands, except when otherwise indicated.

1.3 Principles of Consolidation

The consolidated financial statements have been prepared in accordance with IndAS 27 (Separate financial statements), IndAS 110 (Consolidated financial statements) and IndAS 112 (Disclosure of interest in other entities) based on the core principle that the consolidated entity presents the Parent company and its subsidiaries as if they are a single economic entity.

In preparing these consolidated financial statements, the financial statements of the Parent company and its subsidiaries are combined line by line by adding together like items of assets, liabilities, equity, income and expenses. In order that the consolidated financial statements present financial information about the Company as that of a single economic entity, the following steps are taken:

- a. The carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary are eliminated. The excess/deficit of cost to the Parent Company of its investment over its portion of net worth in consolidated Subsidiaries at the respective dates on which the investment in such entities was made is recognized in the financial statements as goodwill/capital reserve.
- b. Non-controlling interests in the profit or loss of consolidated subsidiaries for the reporting period, if any, are identified; and
- c. Non-controlling interests in the net assets of consolidated subsidiaries, if any, are identified separately from the parent's ownership interests in them.

IntraCompany balances and transactions, including income, expenses and dividends, are eliminated in full. Profits and losses resulting from intraCompany transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full.

These Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances

Functional Currency of Foreign Subsidiaries is USDollars. The assets and liabilities of overseas subsidiaries denominated in foreign currencies are translated inRS at exchange rates prevailing at the date of the Balance Sheet; profits and losses are translated at average exchange rates for the relevant accounting periods. Exchange differences arising are recognized in the Other Comprehensive Income and are included in the translation reserve. Such translation differences shall be recognized as income or expenses in the period in which the operation is disposed of.

2 Summary of Significant Accounting Policies

a. Current Versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

c. Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must be met before revenue is recognised:

Dividends

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

d. Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting

profit nor taxable profit or loss

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

e. **Functional and Presentation Currency**

IndAS 21 (Effects of changes in foreign exchange rates) requires that functional currency and presentation currency be determined. Functional currency is the currency of the primary economic environment in which the entity operates. Presentation currency is the currency in which the financial statements are presented.

These consolidated financial statements are presented in Indian Rupee, which is the functional currency and presentation currency of the Parent Company. All foreign currency transactions are expressed in the functional currency using the exchange rate at the transaction date.

Foreign currency balances representing cash or amounts to be received or paid in cash (monetary items) are retranslated at the end of the year using the exchange rate on that date. Exchange differences on such monetary items are recognized as income or expense for the year.

Non-monetary balances that are not remeasured at fair value and are denominated in a foreign currency are expressed in the functional currency using the exchange rate at the transaction date. Where a non-monetary item is remeasured at fair value in the financial statements, the exchange rate at the date when fair value was determined is used

The functional currency of the foreign subsidiaries is United States Dollars. However for the purpose of preparation of consolidated financial statements, the assets and liabilities of the foreign subsidiaries are translated and presented in Indian Rupees (which is the functional and presentation currency of the Parent company) at the closing rate at the end of the reporting period. The income statement is translated at exchange rates at the dates of the transactions or at the average rate if that approximates the actual rates. All resulting exchange differences are recognized in other comprehensive income.

f. Property, Plant and Equipment

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Under the previous GAAP (Indian GAAP), property, plant and equipment were carried in the balance sheet on the basis of historical cost less accumulated depreciation (carrying value). The Company has elected to regard the previous GAAP carrying value as deemed cost at the transition date, viz., 1 April 2016.

Depreciation is calculated on written down value basis over the estimated useful lives of the assets as follows:

Asset Block	Useful Life (Years)
Furniture & Fixtures	10
Computer	3
Office Equipments	5

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives are in line with those prescribed by Sch II to Companies Act, 2013.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Impairment of PPE

The carrying amounts of assets are reviewed at each balance sheet date to assess if there is any indication of impairment based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount.

After recognition of impairment loss, the depreciation charge for the asset is adjusted in future periods to allocate the assets revised carrying amount, less its residual value (if any), on straight line basis over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

g. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets**Initial Recognition and Measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified as Equity instruments at fair value through profit or loss (FVTPL).

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent Measurement

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

h. Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

i. Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

j. Borrowing Costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs are expensed in the period in which they occur.

k. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

l. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a Lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

m. Significant Accounting Judgements, Estimates and Assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect reported amounts of revenue, expenses, assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the results of operations during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Item No. 3: CHANGE THE NAME OF THE COMPANY FROM BALAXI VENTURES LIMITED TO BALAXI PHARMACEUTICALS LIMITED;

In terms of provisions of Section 13 and all other applicable provisions, of the Companies Act, 2013 read with the rules made there under, change in the name of the Company requires approval of members by way of special resolution.

The present name of the company is not reflecting the main business of the company, which is into the business of Pharmaceutical products. The company generated 62.96% of its total revenue from the Pharmaceutical products in the last financial year 2019-20. Hence, Board feels that the proposed name '**Balaxi Pharmaceuticals Limited**' would adequately portrait the main business activity of the company.

Due to the above stated reasons, it is proposed to Change the name of the company to '**Balaxi Pharmaceuticals Limited**' in line with Regulation 45 of SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015.

To give effect to the said proposal, the Company had filed an application with the Ministry of Corporate Affairs in Form RUN for availing the new name of the Company as "Balaxi Pharmaceuticals Limited." The Ministry of Corporate Affairs vide its letter dated July 31, 2020 had confirmed the availability of the proposed name. The Company also received In Principle Approval from National Stock Exchange of India Limited (NSE) vide letter dated August 10, 2020. The Board accordingly recommends the Special Resolution set out at Item No.3 of the accompanying notice for the approval of the Members.

For changing the name of the company, it is necessary to amend the Name clause I of the Memorandum of Association of the company to reflect the new name. The revised Memorandum of Association is being uploaded on the company's website at http://www.balaxiventures.in/investors_information.php for perusal by the members.

A copy of the same shall be given to the shareholders upon receipt of a request for the same, in writing, during the AGM period and shall also be available for inspection at the Registered Office of the Company during business hours on any working day, excluding Saturday and Sunday between 11.00 a.m. and 1.00 p.m. up to Tuesday, September 10, 2020.

None of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 3 except to the extent of their shareholding, if any.
